Denis Turbin

Web and Product Designer · Framer Developer

France (moving soon) · French long-stay visa (D) with permission to work

Open to roles in France, remote roles and freelance projects

denis@trbn.design · +33 7 45 69 14 29 · trbn.design · linkedin.com/in/denis-turbin

Web and product designer and Framer developer. I work on the pages and tools a business depends on to sell: pricing, services, enquiries, waitlists and sales pipelines. From Figma design to responsive Framer build, CMS and handover, so the team can keep running it without me.

Websites

Client work. Results that belong to a client are labelled as theirs.

Basepoint

Aug 2026

Healthcare · Website design and Framer development · trbn.design/work/basepoint

- Designed and built an 8-page website from the client's copy and brand direction, built around making three care tiers understandable.
- Set up the domain and analytics, then handed over with a style guide and guidance for editing, publishing and responsive checks. Ownership transferred to the client on 28 August 2026.

"Denis built my full site in Framer from my copy and brand direction. Careful execution, considered animations, solid responsive behaviour." Robert Delaney, Basepoint, on Contra

Sunfreaks

May 2026

Sunscreen brand launch · Website design and Framer development · trbn.design/work/sunfreaks

- Built the launch website around the brand story, product and founder, with the waitlist action available throughout the page.
- The website has its own showcase on DesignRush, which credits me for the work.

The business it presents: listed on the Avant Now accelerator's founder roster and featured by European Women in VC × Evertrace.

Root Square Academy

2026

International online math school · Website design and Framer development · trbn.design/work/root-framer

- Carried a playful, illustrated direction through the academy's pages and built the website in Framer.

"The website we created surprises everyone." Dmitrii M, Root Square Academy, on Contra

Prime Clicks

Sep 2025

Amazon marketing agency · Figma design and Framer development · trbn.design/work/prime

- Designed and built a 14-page website: service pages explain the offer, case studies hold the proof, and team and editorial content have their own place.
- Built CMS collections for blog posts, case studies and team profiles, so the team can maintain its own content.

The business it presents: rated 5 / 5 across 16 reviews on Clutch. One of the agency's clients reported around $8M in Amazon US sales over two years. These are the agency's results, reported before this website, and are shown for context.

Janna Deloume

2025

Language teaching · Website design and Framer development · trbn.design/work/janna

- Brought lesson formats, pricing and student feedback into one website, with WhatsApp contact placed next to the information students use to choose.
- Gave an established teaching practice a direct route from a first impression to an enquiry. Featured by One Page Love.

The business it presents: 844 lessons taught and 5 / 5 from 22 reviews on Preply, checked October 2026.

"He's an exceptional designer with strong technical skills as a Framer developer." Janna Deloume, on Contra

Sabsus

2025

CRM platform · Website design, Spline 3D and Unicorn Studio · trbn.design/work/sabsus

- Designed a marketing website that explains a broad business platform through its benefits, using abstract 3D and interaction instead of product screenshots.

"… quickly gets a solid grasp of the business logic …" Aleksei Sabitov, Sabsus, on Contra

Sales and operations tools

Interface design delivered in Figma.

Sabsus Restaurant CRM and POS
Mar 2026

Restaurant technology · Product design in Figma · trbn.design/work/restaurant

- Mapped the journey from first lead to active client, then designed a sales dashboard, pipeline, call workspace, client profiles and POS interface on shared components.

Mortgage CRM
Mar 2026

Mortgage lending · Product design in Figma · trbn.design/work/mortgage

- Designed an application across four loan phases, from lead intake to closing, with separate journeys for loan officers, processors and borrowers.

Automation Workflow Builder
Mar 2026

Mobix · Product design in Figma · trbn.design/work/node

- Designed the canvas, block library and settings of a visual automation builder, so complex sequences stay readable as they grow.

Experience

Independent Web and Product Designer
Feb 2024–present

Freelance · Remote

- Take client projects from brief and page structure through visual design, responsive Framer build, CMS setup and handover.
- 16 client reviews across Contra and Fiverr, with Fiverr clients in the United States, United Kingdom, Netherlands, France, Australia, Serbia, the Philippines and Panama.
- Published TRBN One, a portfolio template listed on Framer.

UX/UI and Web Designer
Oct 2024 – Mar 2025

Grids (Mailfit) · Full-time · Remote

- Worked on concept design and on website structure and layout in Tilda, with UX work on website analysis, site maps and user journeys.

Education

Bachelor of Business Administration, in progress
Jan 2026–present

University of the People
